

Detection of Marine Mammal Sounds

A Passive Acoustic Training Workshop:

Join Oregon State University and The University of Rhode Island for a hands-on workshop exploring new and improved detection capabilities of Ishmael, a free sound analysis software system.

This free 2.5-day workshop will feature:

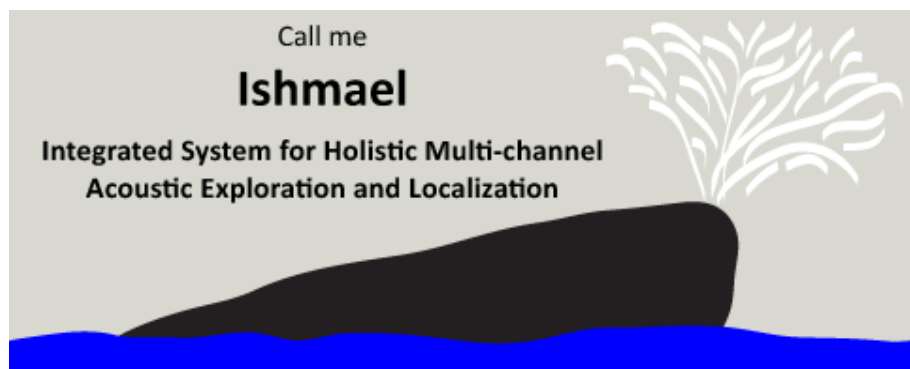

- Basics of Sound Analysis
- Overview of Detection and Classification
- Advanced Detection Techniques
- Performance Comparison
- Detection in Ishmael using MATLAB
- Lab: Detect calls in your own dataset

WHEN

Tues. June 19 – Thurs. June 21, 2018
9:00 am – 5:00 pm (12:00pm on Thurs.)

WHERE

University of Rhode Island
Engineering Computing Center, Kirk
90 Upper College Road, Kingston, RI.

Oregon State
University
